5-Heike Fallon - late arrival

5-Jen Jacobson

6-Sheila Henry

6-Jossie Banuelos

6-Thom Fuhrmann

**** Each group will also have 10+ athletes to help with lifting

Instructions

- 1) Use tall delineators to help outline areas where race goes through multiple times in same area (ex: Fairway between group 1 and 3). Also for crowd control areas, so in area 5 where mile 2 is set up. Many teams will be set up in that area.
- 2) Group leaders grab cones, flags and twine to set up and a pair of scissors.
- 3) Group leaders assign duties to group, each adult should have 3-4 student helpers to carry items and set up in specific spots. We want to try and use as many cones as possible over the delineators.
- 4) Always make sure to give as wide as possible lanes for running. Make sure you always guide the racers off the greens!
- 5) When in doubt call coach B - 909-262-6051. Coach Marcus and Coach B will be coming around to help once we have the back area staged.
- 6) Supplies from the city are placed along back access road and next to the entrance and club house. Group 1,4,5,6 should use the items on the back access road. Groups 2,3 should use items near club house and front gate. TRY TO USE NATURAL BOUNDARIES TO MARK COURSE - Like trees!!!!
- 7) Clear low hanging branches when necessary.

Those who have extra time can help set up the range once it is officially closed down at 8pm
